Thursday Morning, December 4.

The Oregon Question.

From the Southport Telegraph.

We are sick of the ridiculous affectation of patriotism which is continually yelling, war, war, and boasting of our prowess ability, and disposition to fight with, and thrash the universal world. There is not nor can there be any necessity of war, nor indeed to talk about it. All we have to do is to remain quiet and neither England nor all creation, can prevent Oregon from eventually forming a portion of the great North American Republic.

We observe that our Eastern contemporaries very generally take it for granted that the Western press and people are unanimously in favor of our Government asserting forthwith its claim to the *whole* of Oregon, even at the risk of immediate hostilities with Great Britain. In this respect, we think that our Eeastern friends are much mistaken. That there are some restless spirits in the West, as in the East, who would rejoice at the prospect of a war between the two countries, is not to be denied; but we are confident that a large majority of our sober minded, substantial, order loving citizens would deprecate an appeal to arms, unless the National Honor, or the National Rights demanded such a sacrifice at their hands. It is perfectly understood here, at the West, that Oregon must eventually be ours; and as the Southport Telgraph says, "neither England nor all creation" can prevent this result. The lapse of five, or at furthest ten years, will give us undisputed possession of the whole Territory, and that too, without the shedding of a drop of blood, or the sacrifice of a single human life. The policy of the West, as of the whole country, is Peace. The continuance of our existing amicable relations with Foreign Powers is all important to our growth and prosperity. War would cut off, at once, that tide of immigration which is now filling our wood lands and covering our prairies with a hardy, industrious and enterprizing population. The preservation of Peace will swell this fertilising current and ensure increasing annual accessions to the wealth, population and influence of the Western States. What can be clearer, then, than that the West has everything to lose and nothing to gain from War?

The Southport Telegraph, from which we take the extract at the head of this article, is a leading and zealous organ of the Loco Foco party in the Territory. The rebuke which it administers to the mock-patriots who are clamoring for war, is richly merited. We hope that it may meet the eye of Father Ritchie, especially as this veteran political mountebank is striving to make out that none but Whig papers object to the summary mode in which Mr. Polk proposes to settle the Oregon question.

FROM OREGON.—We published yesterday an article from the Independence Express, announcing the arrival of Doct. White, Sub-Indian Agent, from Oregon, after ninety days travel. The same paper gives some interesting details of the journey. The Doctor was accompanied by three men only. They set out from Willamette on the 23d of August. Soon afterwards they encountered a party of the Wallawalla Indians, by whom they were kindly received and entertained. On the 1st of September they met at Burnt River the three companies of emigrants, commanded by Captains Barlow, Knighton and McDonald, amounting in all to 800 persons with 87 wagons, all in good health and spirits. They were within 350 miles of their destination and represented the difficulties of the route as nothing in comparison with what they expected. For two or three hundred miles this side of Burnt River other parties of emigrants were met with; the last, called the St. Joseph's Company, on Snake River. These were mostly New England people who had emigrated to Iowa and thence to Oregon. On the 19th of September the Doctor and his companions arrived at Fort Hall, where they were kindly received by Capt. Grant. On the 27th they met Dr. Joseph Burke, a Botanist and Mineralogist, in the employ of the British Government. On the 4th of October they passed the *divide*, i. e. the ridge which separates the waters flowing into the Atlantic from those falling into the Pacific. On the 13th they arrived at a large Sioux village of 2000 souls and were most hospitably entertained by the Chiefs. On the 15th they reached Fort Laramie and were kindly welcomed by Mr. Papin. On the 31st they fell in with a large party of Pawnee Indians, of whose approach they had been warned, and were taken prisoners. They were carried to the village hard by, stripped of their clothing and valuables, and one or two of them, the Doctor included, received some severe blows. After being detained all night they were started off next morning upon some lame ponies furnished by the Indians, their own horses as well as the rest of their property having been stolen by the rascally Pawnees. The squaws gave them some corn and upon this food they subsisted for several days. Finally on the 13th they reached the residence of Mr. Charles Fisk, among the Shawnee Indians, 30 miles from the U. S. line, where they procured their first meal since their adventure with the Pawnees. As we stated yesterday, the Doctor brings with him a memorial to Congress from the Legislature and Judiciary (!) of Oregon. We shall doubtless learn its purport before long.

☞ To make room for the favors of our advertising friends and at the same time give to our country readers all the news and miscellaneous matter which appears in the Daily, we are compelled to issue, with our Weekly to-day, a supplementary sheet of the size of the Daily. We are thus enabled to present to our country subscribers upwards of *twenty-five* columns of reading matter, including all the latest political, commercial and general intelligence, besides the advertising supplement of twenty-four columns. The two together form 52 columns of matter, or as each column is equivalent to five duodecimo pages, there is as much in our Weekly Sentinel and its Supplement as in a book of 250 duodecimo pages.

The Frog.—Machine Poetry.

Of all the things that live,
In woodland, marsh or bog,
That creep the ground or fly the air,
The funniest is the frog—
The frog—the scientificest
Of Nature's handiwork—
The frog, that neither walks nor runs,
But goes it with a jerk.

With pants and coat of bottle-green,
And yellow, fancy vest,
He plunges into mud and mire,
All in his Sunday best;
When he sits down he's standing up,
As Paddy O'Kinn once said;
And, for convenience sake, he wears
His eye on top his head.

You see him sitting on a log,
Above the "nasty deep;"
You feel inclined to say, old chap,
Just "look before you leap!"
You raise your cane to hit him,
His ugly-looking mug,
But, ere you get it half way up,
Adown he goes, ker-*chug*.

He keeps about his native pond,
And ne'er goes on a spree,
Nor gets "how-come-you-so," for a
Cold-water chap is he;
For *earthly* cares to get drunk
He's not the silly fool;
But, when they come, he gives a jump,
And drown's 'em in the pool.

LIBERTY AND SLAVERY.—A lawyer of Louisville states that, by his professional exertions, he has within the last few years procured the freedom of at least forty slaves, and that, so far as he has been able to observe, the condition of all of them was made worse by their being at liberty—that they subsequently became poor, thieving, drunken and abandoned wretches.

We find this paragraph in the Chicago Democrat of Saturday last. As it is unaccompanied by any comment, we are led to the conclusion that the editor of the Democrat fully concurs in the inference intended to be drawn from it; which is, that the blacks of the South are not fit for freedom and should therefore remain slaves. We should be somewhat surprised to see such a conclusion assented to by any press published in a free State, did we not remember that on no one question is the hollow hypocrisy of Loco Foco professions so clearly shown, as on this of Slavery. The leaders and organs of this party are constantly prating about their love of democracy, their hatred of oppression, their advocacy of equal rights; and yet with all these fine words upon their lips we find them, on every occasion, giving their votes and influence to any measure calculated to strengthen and perpetuate the accursed system of Human Slavery. An institution more utterly and irreconcileably hostile to democracy; a tyranny more odious and galling; a violation of equal rights more monstrous and glaring than that which fetters both body and soul of the poor African, is not to be conceived; and yet these lovers of democracy, these haters of oppression, these fast friends of equal rights, not only stand up for the system as it is, but seek to fasten it upon our *free* Republic in perpetuity!

QUESTIONS WELL PUT.—The editor of the Buffalo Courier, an ex-Albany Loco Foco Banker, who ought to be very familiar with the corruptions of Loco Foco Banking and Bankers, is particularly malignant in his charges against the Whigs of being favorers of "special privileges," &c. Here is a specimen:

Three-fourths of all the laws the Whigs have passed have been for the benefit, and at the peculiar solicitation of the moneyed interests.

Look into the lobbies of the Legislature of New York, you will find them thronged with agents, employed by capitalists and speculators to effect the passage of some law for their advantage.

The Rochester Democrat exposes the falsity of this charge in the following home thrust questions. The *ninth* question, in particular, must be exceedingly interesting to the editor aforesaid:

Our Buffalo cotemporary might deem us discourteous should we reply to this paragraph in the *brief* manner its character deserves. We shall, therefore propound him a few questions, the answers to which will enlighten his readers.

1. What party chartered the United States Bank?

2. What party chartered all the Bank monopolies in this State?

3. Who are responsible for ninety-nine hundreds of all the other charters in the Empire State, especially solicited by the "moneyed interests"?

4. What party chartered the "Wild Cat" Banks of Michigan—the rotten institutions of Illinois—the swindling shops of Mississippi—the bankrupt banks of Alabama, Wisconsin, &c. &c.?

5. To what party did Butler belong when he was doling out sixpenny bits to the bill-holders of his bank at Sandy Hill—plying the young Patroon with wine, upon a three hours' stretch, that he might persuade the "*Albany Dutch*" to believe that "*tons of specie*" were on the road to Sandy Hill, while his pious heart mourned over the non "*stated preaching of the Gospel*"?

6. Were Allen and Hoyt and Phelps Whigs, while they were "*lobbying*" through a Bank Charter for *Tammany Hall*, and kindred institutions, in which they were ready to take stock by the "*half million*"?

7. Did the Whigs control the Albany Regency while they were glutting themselves upon "*the unclean drippings of bank legislation*"?

8 To whom did Judge Maxwell refer when he said that no bank charter could be got through the legislature unless they were allowed to have "*a finger in the pie*"? Were they Whigs or Loco Focos?

9. What "capitalists and speculators" officiated in the "marble walls" of the Buffalo City Bank, when it failed to meet its engagements?

10. And finally, what party was it which did away with the monopoly character of our Banking System, by passing the existing General Banking Law—a law which not only throws banking open to every man who has capital enough to engage in it, but abolishes the necessity of further legislation upon that subject, and rendered the disgraceful system of "lobbying" a thing of the past?

If our friend of the Buffalo Courier will take the trouble to answer these questions, either to himself or to his readers, we think he will reach the conclusion, not only that what we have quoted from his columns is a libel on the Whigs, but unjust to the Loco Focos, as calling up reminiscences which a Loco Foco editor should endeavor to keep in the dark.

To the ten searching questions put by the Rochester Democrat, we should like to add another, and that is, who was the Cashier of the Bank of Wisconsin at the time it exploded, after having deluged the Territory with its worthless "promises to pay." The Loco Foco Delegate to Congress from this Territory was the President of this "swindling shop," and the editor of the Buffalo Courier, if we mistake not, was the Cashier.

CHRISTY'S BAND.—We regret to learn from the Galena Gazette of the 20th ult, that this band of minstrels met with a serious accident while on their way to Dubuque. From some cause, the driver fell from his seat, the horses ran away; the carriage upset; one of the band had his leg broken, another his foot smashed, and a third got badly bruised.

Freedom and Slavery.

It is an old proverb that "figures cannot lie," and we think a correspondent of the Richmond Whig—a Southerner travelling in the North—makes them utter some very significant truths which we hope may be heeded not only in the Old Dominion, but throughout the entire South. Here is an extract from one of his letters which contains much and suggests more to reflective minds:

SPRINGFIELD, MASS., Oct. 28, 1845.

I am now in the Old Bay State. This place is certainly larger than I expected to find it. I have generally kept pace with the progress of almost every town in the Union, but I did not anticipate that this place was composed of a population of over 15,000, and that there was so much manufacturing done in it; but it is even so. Well, I cannot find any fault with them for it—they are only doing, and have done, that which justice and good sense claimed at their hands. I cannot find out either why they should be called robbers and oppressors, for they seemed to be injuring nobody; but, to the contrary benefiting themselves and the whole country. But, before I shall attempt to speak farther of this place, I wish to call the attention of your readers to an exhibition of the produce manufactures in the United States, as taken from the census of 1840.—No one can charge me with giving an *ex parte* statement, as I copy from the census. It is, therefore, good authority, and I trust it will be heeded—It as follows:

Leaving us in all justice in the vocative		1,054,738,150

This is simply two pursuits, Agriculture and Manufactures. Where will it leave us when I shall add on Commerce to this terrible exposure?—There are some very singular facts brought to my mind in the researches made to make up this table: In making Musical Instruments, South Carolina has not one cent invested; neither has she in fire-arms. When she attempted to annul the laws of Congress, and set at defiance her obligations to her sister States, she sent to this State for guns, swords, and cannon; and even musical instruments, to give enthusiasm to her people, and marshal them against their brethren of the Union—The Yankee boys charged her just about twice as much as they would any one else; at the same time they could have formed a dozen companies of the less noisy, but brave people, who work hard for their living, and marched to Carolina and frightened all these warriors out of the State. Those Nullification muskets muskets are still in Carolina, where they will remain as useless lumber. I respectfully submit to her politicians, when they want to fight again, to learn to manufacture their instruments of war and defence, and not make such a set of fools of themselves as they did before. All the other States have something invested in this business but this little war State. Those whom the gods wish to destroy they first make mad. She has been kicking against the pricks long enough now, and it is time for her to stop. She is always humbugged in attempting to humbug others. She has a noble people, but the most ungodly and unprincipled gang of politicians that was ever thrown together in so small a compass.

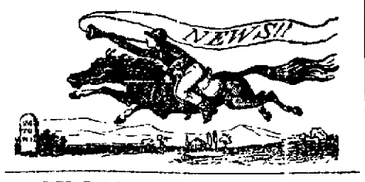
The most of the manufactured articles enumerated in this table, where the amount in favor of the North and West is the greatest, are made from the staple produce of the South. No man can look over this table, and contrast our productions thus far with the North and West, and not exclaim that we are the most aggrieved humbugged and injured people, considering our circumstances, natural and political advantages, of any free people on the earth.—That we should have been so long gulled, duped and swindled, is deeply mortifying.—Money enough has been spent for some twenty years past by the deluded people of the South in getting up meetings, and travelling to hear a low, grovelling and merciless race of office-seekers denounce Home Industry, to build railroads in every direction where it was necessary, through the heart of our State, establish Free Schools in every county, and fill the Old Dominion with a population of 3,000.000 of intelligent freemen. Now what is our position? The North have prepared their young men to direct any business, concentrate their capital, and are now competing with the Old World for a market for their commerce, agriculture, and manufactures. It will take us twenty five years—the fourth of a century—to stand where the north stands now. May Heaven forgive these men, and open the eyes of our people and prepare them to assert their rights. Freemen of the South! remember your fathers, and rather than live in the low, dishonored and servile State into which you have been thrown by treachery and fraud, resolve to die all slaves or like freemen. Your young men now, who have any real pride of character and zeal for their country, feel that you are robbing them of a fair chance to compete with the young men of the North. I ask every young Whig of the South to assist me, and keep within the lines, and the aged men, who had to keep the party concentrated and compacted; and when a contest comes, a thorough rout will befal the foe.

FATHER RITCHIE THROWN OVERBOARD!—The Washington Correspondent of the Milwaukie Courier, thus gives the "cold shoulder" to Mr. Polk's organ-grinder:

"Father Ritchie, I perceive, has your sympathy—he has mine also. He is an old man, and a worthy one—but with all his worth and experience he fails to fill the station in which he is placed. IT IS TIME HE HAD REST. You cannot but have perceived that he is too apt to be irritated by the inuendoes, and ill-natured fibs of mischievous letter writers who are to be found here every day in the year—the exposition of a false statement, made against the administration or against himself, should never be done with a show of irritation or of hauteur. Nothing more than a calm denial is seldom required for such a man as Father Ritchie—if any thing is allowed beyond that, it might be a smile at the audacity or a sigh for the depravity of the author of the slander."

"It is time he had rest!" In other words, "Superfluous lags the veteran on the stage." This is the unkindest cut of all! How will "Father Ritchie" take it?

☞ We are glad to say that the Spring-street Bridge is under repairs and will doubtless be finished to-day. It is high time.



BY LAST NIGHT'S MAIL.

Arrival of the Britannia!

IMPORTANT FOREIGN NEWS--GREAT RISE IN FLOUR AND WHEAT!!

We are indebted to Mr. HELFENSTEIN, who arrived in town last evening, direct from Detroit, for the subjoined extra from the Detroit Free Press office containing the news of the arrival of the Steamship Britannia and of a *great rise in breadstuffs*, consequent upon the intelligence she brings. It will be seen that this Extra quotes Flour at $7,00 in New York, but Mr. Helfenstein tells us that the latest advices quoted Flour at 7,37 a 7,50 and Wheat at 12 shillings. As may be imagined, the news caused great excitement at Detroit and all along the route. The intelligence was received at Chicago by private expresses some two or three days ahead of the mails. Wheat was selling at 95 cents at Chicago; so we hear.

From the Detroit Free Press—Extra.

We received nothing but a Southern mail yesterday, but the Cleveland Herald has the following important item:

The steamer is in at Boston, and we are indebted to a commercial friend for the following extract of a letter from Buffalo, dated Nov. 23d, received by the land mail.

"The foreign news received here last night caused another great rise in flour in Albany. It is said to have sold there at $7 per bbl.—The Continental ports some of them, it is said, are already thrown open, and some of them think the British will be."

The purport of the same was received in this city, by private express, from Buffalo, yesterday morning. The next mail we are in hopes will bring us papers containing the full accounts.

Correspondence of the Mobile Herald and Tribune.

PENSACOLA, Nov. 10.

The U. S sloop of war Falmouth, bearing the broad pennant of Commodore Connor, arrived off this port about noon to day, and anchored off the navy yard at sunset. She is eleven days direct from Vera Cruz and was accompanied from that port by the U. S. brig Porpoise, which preceded her in by a few hours. She spoke the U. S. brig Lawrence at sea. No news has transpired, excepting that of her being followed into this port by most of the squadron, leaving but a vessel or two for observation.

MURDER—Thomas Evans and his brother-in-law H. P. Bliss, residing near Uniontown, Pa. got in a quarrel on the 19th, during which Evans struck Bliss on the head with a heavy corn cutter, killing him instantly. Evans fled; both families.

The Hon. John Chambers, ex Governor of Iowa, passed through this city three or four days ago on his way to Washington city. He knew nothing of his removal till he saw it announced in our paper. If we are not misinformed, he will, on his arrival at Washington, make a damning exposition of the frauds and rascalities of one or more Government agents who have been operating in Iowa.—[Louisville Jour.

The fine, large new steamer Richmond, struck on a rock in the Ohio the 18th, and was totally wrecked. She was bound from Louisville to New Orleans, and was insured for $20,000. Part of her cargo and machinery saved.

Public Meeting.

In pursuance of the call published in the several papers of this town, a large number of our citizens assembled at the Military Hall, last evening. The meeting was organized by the appointment of Dr. WEEKS as Chairman, and MESSRS. LAPHAM and HATCH as Secretaries.

M. POTTER addressed the meeting at some length and very ably on several matters having an important bearing upon the interests of our town. His views were enforced by Messrs. UPHAM, HOLTON, and others, and Committees appointed to take charge of the different subjects, and report at a subsequent meeting. We are happy that the spirit which animated the entire assemblage argues most favorably for the future growth and prosperity of Milwaukie.

From the Milwaukie Courier.

"We have made arrangements for the best Washington Correspondence ever enlisted for any paper west of the Lakes."

If the specimens of this "correspondence," published in yesterday's Courier, are to be regarded as fair samples, even the Doctor's endorsement wont make it pass current. Here is an extract which may serve to show how small a proportion of truth is to be mixed up in the Courier's Washington letters:

"The whigs in Georgia, on the heels of what was called a victory, have been getting at loggerheads; Senator Berrien's successor was nominated by the whigs and the dignified Senator has resigned in disgust and the probability is that no successor will be elected for the present Congress."

This is a repetition, in another form, of the fabrication put forth in last week's Courier.—We have already nailed the base coin to the counter. The Whigs of Georgia, instead of repudiating, have unanimously re nominated Mr. BERRIEN to the U. S. Senate, and he thus becomes his own successor.

Religious Notice.

A course of Lectures on the doctrine of Universal Salvation will be delivered on Sunday Evenings in the Universalist Church, commencing next Sunday Evening, Dec. 7th.

Lect 1st.—The Immutability of God. Text Malachi 3d Chap. 6th verse.—"I am the Lord—I change not." The public generally is invited to attend. Milwaukie, Dec 2, 1845.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
Milwaukie, Dec. 3, 1845.

There has been another "flurry" in the market to-day; competition among buyers having forced the price up to 87½ cents. There is but little coming in. We suppose that the fair market value of wheat is not much over 80 cents; and know of no cause for the rise to-day, except the one we have assigned.

We hear of no sales of Flour except at retail at $4.—Salt is selling at $2 per bbl.

DETROIT, Nov. 27.—The market is without change and unusually dull. The anticipated foreign news is looked for anxiously. We hear of the arrival of several large eastern dealers, who will probably commence operations as soon as the foreign news is received. No mail or mail steamboat arrived yesterday.—[Adv.

BUFFALO, Nov. 22.—Our market continues to be inactive with rather less firmness. In flour the only transactions we have to note are sales of some 500 bbls Western brands at $5, at which quotation Black Rock and good Western brands are freely offered. In Wheat the only sale of which we hear is of some 6,000 to Walbash on the Propeller Hercules at $1.—Com. Adv.

THE PEOPLE'S STORE...A couple

of sturdy Farmers once coming to, met the other returning from town, on the Green Bay road, after having passed the usual salutations, were heard making the following remarks.

"Well, neighbor Dobson, I have come to the conclusion that it matters but little to me who is our delegate in Congress, or which party maintains the ascendency, so long as our interests and the interests of our common country are protected; but the great question for us in our new homes, where the people earn their bread by the sweat of the brow, is to discover, first, where we can get the most money for the products of our labor; and, where we can get the greatest amount, and the best qualities of the necessaries of life for that money. What say you, eh?"

"What say I, neighbor Simmons! Why, I say that my views coincide with yours exactly on that subject. Nothing has given me so much trouble as these great puzzled Milwaukie Merchants; and seeing you on your way home with your wagon full of the good things, I was just going to ask you who you sold your Wheat to—what you got for it, and where you did your trading. I suppose you have no objection to telling me?"

"No objection at all, neighbor Dobson; I will answer your questions with the greatest pleasure. I sold my Wheat to SAYRS—got seventy cents per bushel hard dollars for it, and done my trading at the PEOPLE'S STORE. I have traded there pretty much altogether ever since the store first opened. He always pays me the highest price for what I take to market, and sells me whatever I want a great deal cheaper than I can buy at any other store.—Cloth at four shillings; Shoes at from two shilling and six pence to one dollar; Hats at one dollar and a quarter; Molasses at four shillings; good Sugar at nine cents, and my Wife says that his six shilling Tea is better than we ever bought in York State for one dollar; besides his stock is one of the very largest in town. Why, if one quarter of the stores on the east side of the river had such stocks, they would make the greatest noise about it you ever heard again. You can scarcely call for an article that he has not got—no old shop keepers lying around; everything looks new and good, and how he can afford to sell so cheap when all the other store keeper are complaining about the advance of prices, I cannot tell, but certain it is the *People* have found him out, and there are constant streams of customers going in and out of his store, and it is really amusing to see how happy they all look as they go home with their arms, baskets and wagons filled with Dry Goods, Groceries, or whatever else they may have wanted; not only that he treats his customers, rich and poor—Americans—Irishmen—Dutchmen—all men—alike. It is emphatically the People's Store, and I recommend you and all my friends and neighbors who want to be prepared for a rainy day, to sell your produce and do your trading at Henry Sayrs' People's Store."

"Where did you say that store is, neighbor Simmons?"

"In the West Ward, near the American House, just before you turn to cross the Spring street bridge. You'll see a large sign over the door—

"THE PEOPLE'S STORE."

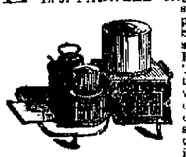
EMPIRE Hot Air COOKING STOVE.

L. J. FARWELL—Rogers' Block, on East Water street—Now offers to the public this approved Cook Stove, of different sizes, to suit small families, or large Boarding Houses or Hotels. The high character which this Stove has obtained wherever it has been introduced, is a guaranty of its excellence. The complete success which has attended the introduction of hot air into the oven, and other improvements in the construction of the Empire Stove, justify him in warranting them to bake equally as well as a brick oven, and to perform all other operations in cooking with 30 per cent less fuel than any other cooking stove now in use



An examination of the stove will ensure its sale, and a trial of it fully realize all reasonable expectations.

THE EXCITEMENT at EME-

RY'S CONFECTIONERY!—STATEMENT OF FACTS!—The proprietor, whose shop is on Wisconsin st., a few doors above the Bookstore of Hale & Hopkins, deems it proper, and begs leave respectfully to state, that in regard to the movement about his shop on account of the arrival of so large a stock of Goods in his line, the excitement was not as great as might have been expected, nor did his shop or Goods receive any material damage. That such an unprecedented arrival of Toys, Fancy Articles and Sugar Fixings, should create quite a stir among the juveniles, as well as those of more mature age, is not surprising. He is however, happy to state that the crowd (who had assembled only to gaze on the endless variety comprising his stock,) were easily dispersed, all perfectly satisfied that the greatest lot of pretty Toys, Fancy Boxes, Doras and Confectionery that they ever did see, is to be found at EMERY'S, and quietly though anxiously wait the annual visit of Old Santa Claus, richly laden with the good things to be found at this establishment.

The proprietor, thankful for past favors, and expecting in a few days to move to his new shop, nearly opposite his present stand, will then be able to spread out his stock of valuables, and respectfully solicits a continuance of the patronage of the public. The public generally are invited to call at this establishment, where all the varieties of an eastern city confectionery may be had. Molasses Candy as usual at the reduced rates.

☞ Country merchants and dealers supplied as usual with Candies. nov12

SANDS' SARSAPARILLA.—Fever one of the most frequent and dangerous diseases to which the human body is liable. Its first approaches is upon the nervous system: then the vessels of the skin become deranged, producing dryness and burning heat. After but the general system is involved, and the pat ent sinks beneath the attack, unless relieved by appropriate remedies. Noxious effluvia and various miasms are the cause of fever, being inhaled throughout the atmosphere, and the breathed into the lungs, when the poison combines with the nature fluids of the body and is carried by the circulating organs to the remote ramifications of the system. If then, the animal frame is kept in a perfect sound and healthy state, and every organ performing its functions properly, there can be no room to set the predisposing cause, which is the noxious effluvia or tainted miasm, with the exception, which is an impure state of the blood, and depraved condition of the general constitution, an I consequently no disease.

SAY! STRANGER—have you been in LUDINGTON & Co's Store on the corner, since they have received their Fall stock of GOODS? If you have not, I really advise you to go. It is a strange thing indeed to see such a quantity of Goods, and so equal an assortment, in any one store. I have often heard people say that they had a very large stock of Goods, but I never had an idea that their stock was so tremendously large. I have been all around town, in their "Wholesale Stores," "Cheap Cash Stores," "One Price Store," "Great Excitement" Stores, "25 P cent. less than any other House in the Territory" stores, "Fancy Stores," "New Stores," "Western Stores," &c. but after looking all, I put LUDINGTON & Co's store down at extra No. 1. You will find them willing to wholesale or retail Goods cheap for cash, at one fair price, without the least excitement, not 25 P cent cheaper than any other store in town, and they have a fine assortment of Fancy Goods, and will sell as cheap as can be bought at any new store in this Western country. They have, according to the best authority and my own observations, the largest and best selected assortment of Goods in Milwaukie, and their prices appear to give first rate satisfaction among the people. It m pears strange, but it is nevertheless true, that they should sell so many Goods to so many people. Why! you can hardly go into any town in Wisconsin, but what you will see undoubted evidences that they are doing a tremendous large business. As far out as the Mineral region—ye! nules farther you will see dry goods boxes, barrels, kegs, &c &c. with Ludington & Co's name on, which is a strong indication that they were sent there from their store, filled with Goods. Ask the principal residents of Milwaukie, Washington, Dodge, Walworth, Portage, Fond du Lac, Marquette, and numerous other counties, where they buy their dry goods, groceries, hardware, crockery, boots and shoes, leather, stone ware, wooden ware sash, glass, ropes, paints, oils, pork, fish, salt, timber, lath and shingles, and Minor & Horton's celebrated unrivaled Ploughs—they will tell you at the "Old Corner Store" in Milwaukie. Ask them still farther, where they sell their produce, wheat, corn, oats, barley, timothy and flax seed, beeswax, hides, &c &c. and who gives the highest cash price, and they will tell you LUDINGTON & Co. of Milwaukie. oct9 Cor.

STICK TO THE OLD STAND!!—The subscriber would inform his friends and the public generally that he continues to manufacture all sort of CABINET WARE at the *old stand*, on Huron st., north side, and first door west of the Milwaukie Hotel, where he is prepared to execute all orders in his line, at the shortest notice, in the best style, and on the most reasonable terms.—His supply of materials is abundant and well selected; his patterns conform to the latest easter n fashions, and he employs none but *first-rate* workmen. Grateful for the patronage heretofore received from the citizens of Milwaukie and vicinity, he hopes, by close attention to business, and by punctuality in filling orders, to merit a continuance and enlargement of the same. Having dissolved partnership with David Rower, he will hereafter give his *personal* attention to all work ordered at his shop, and he flatters himself that none who give him their custom will find any reason to regret it. Remember the *old stand*, north side Huron street. Milwaukie, oct15
